Blocked sewer? Ask your plumber to call PSE

If you experience a sewer blockage outside the walls of your house, ask your plumber to call PSE when he's on his way to clear it.

Natural gas lines have inadvertently been installed through some sewer and septic lines. Clearing them with a cutting tool could break the gas line, allowing gas into your house, creating a dangerous situation. PSE will meet your plumber on site—for free—to make sure the sewer or septic line is safe to clear.

This can happen to homes not served by natural gas. Don't take a chance. Before your plumber clears an exterior blockage, have him call PSE at **1-888-225-5773**.
